

# Potters Health Care

Promoting Care, Independence & Safety in the Home

At **Potters Health Care** we endeavour to help people to live independently through providing personal care support at home. The service provided depends on the individual need of the person requiring support within their home. We also offer services to those in receipt of Self-Directed support

## **Our Care at Home Support Service will provide the following:**

- ✓ Personal hygiene i.e washing, dressing, bathing
- ✓ Continence Management
- ✓ Mobility and transfers with equipment
- ✓ Food and diet management
- ✓ Simple treatments and personal assistance (getting in and out of the bed)
- ✓ Domestic support i.e laundry, ironing and preparing meals

## **Our Promise to you**

- 1** A client-centred support plan tailored to meet your need.
- 2** Provide high quality service through placing competent and passionate carers to support you in your home.
- 3** Consistency of support workers.

## OCCUPATIONAL THERAPY SERVICES

Tired of waiting for an NHS or Social work assessment? Need to adapt your home to meet your health needs? Our Independent Occupational Therapists will provide a comprehensive assessment of your home environment in order to make recommendations on the best equipment and adaptations to help you. We can even purchase the equipment for you and fit it safely and professionally.

### What we can recommend:

- Equipment i.e small and big aids for around the house
- Minor installations e.g. handrails, interior adaptations
- Major installations e.g. stair lifts
- Environmental adaptations e.g. wet floor shower areas and ramps
- Specialised seating and recliner chairs
- Moving and handling advise
- Housing advice

**Assessments completed at your convenience, evening and weekend appointments available.**
